## **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

### **INDUSTRY STRUCTURE AND DEVELOPMENTS**

The Indian Tourism and Hospitality Industry have emerged as one of the key drivers of growth among the Service Sector in India. Tourism in India has significant potential considering the rich cultural and historical heritage, variety in ecology, terrains and places of natural beauty spread across the country. Tourism is also a potentially large employment generator besides being a significant source of foreign exchange for the country.

India's rising middle class and increasing disposable incomes has continued to support the growth of domestic and outbound tourism. Domestic Tourist Visits (DTVs) to the States/Union Territories (UTs) grew by 15.5 per cent y-o-y to 1.65 billion (provisional) during 2016 with the top 10 States/UTs contributing about 84.2 per cent to the total number of DTVs, as per Ministry of Tourism.

As per Ministry of Tourism, foreign tourist arrivals (FTAs) in India increased 19.5 per cent year-on-year to 630,000 in May 2017. FTAs on e-tourist visa increased 55.3 per cent year-on-year to 68,000 in May 2017.

India's Foreign Exchange Earnings (FEEs) through tourism increased by 32 per cent year-on-year to reach US\$ 2.278 billion in April 2017, as per data from Ministry of Tourism, Government of India.

India is expected to move up five spots to be ranked among the top five business travel market globally by 2030, as business travel spending in the country is expected to treble until 2030 from US\$ 30 billion in 2015.

International hotel chains will likely increase their expansion and investment plans in India, and are expected to account for 50 per cent share in the Indian hospitality industry by 2022, from the current 44 per cent.

The tourism and hospitality sector is among the top 10 sectors in India to attract the highest Foreign Direct Investment (FDI). During the period April 2000-March 2017, the hotel and tourism sector attracted around US\$ 10.14 billion of FDI, according to the data released by Department of Industrial Policy and Promotion (DIPP).

With the rise in the number of global tourists and realising India's potential, many companies have invested in the tourism and hospitality sector.

The Indian Hospitality & Tourism Industry is a major engine of economic growth and an important source of foreign exchange earnings. In the previous year, the Government of India has taken a number of initiatives like identifying, diversifying, developing and promoting niche products of the country to overcome seasonality and to promote India as a 365 days destination, putting in place a system of training and professional education, with necessary infrastructure support, organizing Bharat Parv as part of the Republic Day and Independence Day celebrations with the objective to promote national integrity and to showcase cultural and culinary diversity to the people of our nation etc.

To meet competition, Company follows aggressive pricing policy for the group bookings and also follows practice of giving special discounts to customers.

### **OPPORTUNITIES AND THREATS**

As more and more people, within and outside the Country, are becoming fond of travelling and look forward to explore the beauty of the nature, there lies an immense opportunity in Hospitality & Tourism Industry to improve our services and to serve the customers with rich class accommodation.

The hospitality industry faces a unique set of risk management challenges as it strives to provide the services and amenities that guests demand for their travels and vacations. For hotels, motels, resorts and casinos, the risks encompass everything from slip and-fall incidents to food-borne illness, transportation liabilities and cyber threats. Some risks are heightened by the typically high turnover of employees and large numbers of part-time workers within the industry.

## **RISKS AND CONCERNS**

Hotel business in general is sensitive to fluctuations in the economy. The hotel sector may be unfavourably affected by changes in global and domestic economies, changes in local market conditions, reduced international or local demand for hotel rooms and associated services, competition in the industry and other natural and social factors.

Risk against fire and earthquake are common risk attached to any hotel / resort especially in the hill areas. Management has taken reasonable steps to counter the risk and has also taken comprehensive all risk insurance policies which covers Company's assets against all risks.

## **OUTLOOK**

In the long term, the demand-supply gap in India is very real and that there is need for more hotels in most cities. The shortage is especially true within the budget and the mid market segment. There is an urgent need for budget and mid market hotels in the country as travellers look for safe and affordable accommodation.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31-Mar-2018 based on “the criteria for Internal financial control over financial reporting established by the Company considering the essential components of Internal control stated in the guidance note on Audit of Internal financial control over financial reporting issued by the Institutes of Chartered Accountants of India”.
